```c
#include<stdio.h>
#include<dirent.h>
main()
{
char dirname[10];
DIR*p;
struct dirent *d;
printf("Enter directory name\n");
scanf("%s",dirname);
p=opendir(dirname);
if(p==NULL)
 {
 perror("Cannot find directory");
 }
while(d=readdir(p))
 printf("%s\n",d->d_name);
}
```
